Professional Qualification

Dr Abhishek Soni completed his graduation from M.A. Rangoonwala Dental College (MARDC) affiliated with **Maharashtra University of Health Sciences MUHS (Nashik) in 2010** and went on to do his **Masters programme in Pediatric and Preventive Dentistry from the same institution** in 2011. He stood first in M.A. Rangoonwala Dental College in his Master's degree programme in Pediatric and Preventive dentistry. He has undergone advanced training in fixed orthodontics care for kids.

During his training, he had research interest in biomaterials like MTA and Biodentine. **He was the first one to do a clinical trial in pulpotomy procedure using a phytochemical Copaifera Langsdorffii** and eventually got his research work published under randomized control trial in the prestigious American Academy of Pediatric Dentistry journal.

Following are the research work published by him in journals of international repute and high impact factor.

1. **Regenerative Endodontics : Library Dissertation**
2. **Musale P, Abhishek S. Clinical Pulpotomy Trial of Copaifera Langsdorffii Oil Resin Versus Formocresol and White Mineral Trioxide Aggregate in Primary Teeth. Pediatr Dent. 2016 Mar-Apr;38(2):5-12.**

3. Musale P, Abhishek S. Laser Assisted Caries Removal – A Boon In Pediatric Dentistry. J dental laser2011;1(4):23-26
4. Musale P, Abhishek S. Use of Nd:YAG laser in the treatment of ankyloglossia for pediatric patient. J dental laser2012;1(6):33-37 .
5. Musale P, Abhishek S Broken instrument retrieval with indirect ultrasonics in a primary molar. Eur Arch Pediatr Dent 2016
6. Musale P, Abhishek S. Mineral Trioxide Aggregate (MTA) Pulpotomy: Patient Selection And Perspectives. Clinical, Cosmetic and Investigational Dentistry 2019
7. Soni AS, Musale P. Developmental Enamel Defects (DED) in children- Etiology and Considerations. J Pediatr Rev 2019
8. Soni AS. Contemporary Pediatric Dentistry – Novel Materials and Techniques. Famdent Practical Dentistry Handbook, 2018
9. Musale P, Soni AS. Mineral trioxide aggregate pulpotomy: patient selection and perspectives. Clinical Cosmetic and Investigational Dentistry 2018:10
10. Soni A, Paul S, Sachdeva P. Silver diamine fluoride as a minimally invasive and aerosol free approach in pediatric dentistry: An extensive case series. Contemp Pediatr. 2021;2(2):42-54.
11. Paul, S. Soni, A. Jain, A. Agarwal, A. (2023). Sedation practices in pediatric dentistry: Changing paradigm of behaviour management in children in the new millennium. Dental Practice, 19(1), 32-38 2023
12. Soni AS(2023) Pediatric Dental Clinic in textbook of Pediatric Dentistry by Dr Nikhil Marwah.

Currently he is a full time practitioner at Vanilla Smiles; Your Smile our Passion . Dr Soni and Vanilla Smiles is popularly known as **Painless and Tearless Happy Gas Centre**; having pioneered happy gas dentistry in Pune and inspiring multiple installation and young paediatric dentists across india through his educative “**Transformations are Real**” videos through their YouTube channel. He believes in providing **Permanent Solutions to Temporary Teeth** and is known to handle cases that have not found success at the hands of other operators. He keeps himself abreast with the latest dental technology in the field of pediatric dentistry trending from **Colorful Restoration, Anterior Aesthetic Restorations (Zirconia Crowns) and Minimal Invasive Dentistry using ICON resin infiltration. He has incorporated Silver Diamine Fluoride; Equia Forte and Loupes 2.5X by Carl Zeiss, Lasers and NOIS(Nitrous oxide Inhalational Sedation) in his practice.**He has carved himself a niche as a tongue tie release provider using Lasers in and around Pune and strongly vouches for “ **Every Mom and Infant has the right to exclusive breast feeding**” . Dr Soni believes and practices Ethical Minimally Invasive Pediatric Dentistry. He believes in preventive regimens and meticulous recalls and diet analysis to prevent any extensive procedures for the little ones. He believes in the formation of a **DENTAL HOME** for your child starting from pregnancy to the eruption of your child's first tooth. The Parents testimonials and 4.9* Google rating are vociferous of his principles into ethical practice providing definite paediatric dental care through compassionate prevention and pursuit of excellence.

He has done an extensive research on Regenerative Endodontics and is known to tackle young permanent teeth affected by trauma or MIH using regenerative dentistry tactics. He has been trained to do full mouth rehabilitation for kids and those with special health care needs under Conscious Sedation; Oral Sedation; IV Sedation and General Anesthesia.

Dr Abhishek Soni was awarded as the **“BEST PEDIATRIC DENTIST”** and owner of **“BEST PEDIATRIC DENTAL CLINIC IN INDIA”** by **Famdent in 2016**. Notwithstanding, his meticulous work also fetched him **“OUTSTANDING DENTIST (Junior)”** by **Indian Health Professional Awards** in 2016. His zest for incorporating new materials in his private practice fetched him the award for the **“BEST PEDIATRIC DENTIST”** successively by **Famdent Excellence in Dentistry Awards (FEDA) in 2017**. He bagged the **Best Poster Presentation** at the recently held PEDOCON, Nagpur 2018. Recently he was conferred with the highest honour by **FEDA** for the third consecutive year; **The Superstar; Above & Beyond Award, 2018**. This was in recognition of Dentistry stalwarts who have applied, and won consistently over the past few years and have demonstrated continued excellence year after year. They are recognised as "Above & Beyond" irrespective of their individual category. He was recently conferred with the best paper award at the ISDT conference, Chennai. He was recently conferred with the JC Lee award for the Best Case presentation under NOOIS.
